## PROFILE

"Passionate and detail-oriented Frontend Developer with expertise in crafting dynamic and responsive web applications. Proficient in modern technologies, including HTML, CSS, JavaScript, React, Next.js, and Tailwind CSS, with hands-on experience in version control using GitHub. Skilled in integrating backend technologies like Node.js and MongoDB to deliver full-stack solutions. Adept at creating user-friendly interfaces using frameworks like Bootstrap, ensuring seamless user experiences. Committed to staying updated with industry trends and delivering high-quality, efficient code for impactful digital solutions."

## WORK EXPERIENCE

SAYLANI MASS IT TRANING

STUDENT MANAGMENT SYSTEM LMS

- We developed a Student Management System as part of Saylani Mass IT Training, working collaboratively as a team. The system includes three main roles: Admin, Teacher, and Student.
- The Admin has full control over the system and all permissions.
- The Teacher can assign tasks or assignments to students.
- The Student can enroll in new courses and access assigned tasks.
- The system is designed to streamline and manage educational activities efficiently.
